📁 Professional Experience

Chandigarh University

Assistant Professor

07/2025 – Present | Chandigarh

- **Exam Coordinator:** Participated in planning and execution of internal examinations of semester for over 1000 students. Coordinated with 150+ faculty members to ensure 100% timely submission of question papers and efficient invigilation scheduling. Maintained 100% compliance with examination policies through accurate documentation and streamlined result processing.

Parul University

Assistant Professor

08/2024 – 06/2025 | Baroda

Achievements/Tasks

- **Internal Exam Coordinator:** Led the planning and execution of 5+ internal examinations per semester for over 300 students. Coordinated with 70+ faculty members to ensure 100% timely submission of question papers and efficient invigilation scheduling. Maintained 100% compliance with examination policies through accurate documentation and streamlined result processing.
- **PULMS Coordinator** Managed the implementation and day-to-day operations (PULMS) for over 2000+ students and 70+ faculty members. Provided technical support and training, resolving 50+ platform-related issues and ensuring a 95% satisfaction rate among users. Streamlined course uploads, assignment tracking, and digital resource sharing, improving LMS adoption and academic efficiency by 35%
- **ICT Coordinator** Implemented and supported 10+ digital tools and platforms to enhance teaching and administrative efficiency. Resolved 50+ tech support queries related to LMS, online exams, and virtual classrooms with 95% satisfaction rate. Promoted tech adoption among faculty through training initiatives, increasing usage of digital platforms by 30%.
- **DHOOM Coordinator** Managed event logistics for "DHOOM," impacting 500+ students across 3 days of cultural programming. Ensured 100% smooth execution of activities by establishing a real-time communication workflow and task delegation system.

Ordex Technology and Solution

Intern

01/2024 – 06/2024 | Ahmedabad

Achievements/Tasks

- Engaged in hands-on Java programming, contributing to the development and maintenance of software applications that deal with over 1,000 customers.
- Analyzed and troubleshooted Java-related issues, delivering timely and effective solutions to ensure application stability. Continuously updated knowledge on the latest Java trends, tools, and technologies to enhance skills and contribute innovative ideas to the team.
- Addressed and resolved reported bugs, participated in maintenance activities, and contributed to the continuous improvement of software applications.

👤 Profile

Highly motivated and tech-savvy professional with a strong foundation in cloud technologies. Possess hands-on experience in Python, MySQL, Java, and Amazon Web Services (AWS), with a growing focus on scalable cloud infrastructure and deployment practices. Known for a problem-solving mindset, the ability to think creatively, and a consistent drive for continuous learning and improvement.

🎓 Education

Maste Of Computer Application

Gujarat Technological University

09/2022 – 04/2024 | 8.27 CGPA

Courses

- Cloud, Big Data, Software Development, Algorithms, JAVA, Python

Bachelor Of Computer Application

Sardar Patel University

06/2019 – 04/2022 | 8. CGPA

Courses

- C Programming, JAVA, JDBC, PHP, Data Structure

🧠 Skills

Django

JAVA

AWS

Hibernate

Springboot

Python

Research

Mentoring

📁 Projects

Tell-It

01/2024 – 04/2024

- Lead a team of 3 to create a website that allows users within a particular organization to chat. Used Django Framework.

Temp-Tracker

08/2023 – 11/2023

- This team project of 3 was used to track temperature and humidity of a building throughout the day and provide various insights for the same. Used IoT tools and Django framework.

News Aggregator

04/2023 – 06/2023

- Lead a team of 3 members to create news website that allows users to read news and authors to publish news on the website. Used Django framework.

Awards

Institute ICT Co-ordinator

Parul University

- Certified in implementing, managing, and supporting digital tools and platforms to enhance teaching and administrative efficiency in educational settings. Training covered LMS management, online exam systems, virtual classroom facilitation, and faculty technology adoption strategies, ensuring smooth digital integration across institutional processes.

Institute DHOOM Co-ordinator

Parul University

- Certified in planning and executing large-scale cultural and student engagement events. Training included event logistics, real-time communication workflows, task delegation, and risk management to ensure seamless execution of multi-day programs. Applied skills during "DHOOM," impacting 500+ students with 100% smooth activity execution across 3 days of cultural programming.

Certificates

Cloud Computing(07/2025-12/2025)

MooC course provided by IITK and govt. of India

Entrepreneurship Essentials (01/2024 - 04/2024)

MooC course provided by IITM and govt. of India

Cloud Architect (11/2025)

ExcelR Edtech Pvt. Ltd.

NEP 2020 ORIENTATION & SENSITIZATION PROGRAMME (02/2025)

Malaviya Mission Teacher Training Center (MMTTC) of University Grants Commission (UGC) Organized by The Maharaja Sayajirao University of Baroda

Mastering Cloud Engineering with AWS and Python(07/2025-09/2025)

CodeSignal course on Cloud Security, AWS Cloud Engineering, Cloud Databases, Messaging and Integration

AI Powered Content Creation with Chatgpt (05/2025-06/2025)

Udemy Course

GEN AI and AGENTIC AI (06/2025)

ExcelR Edtech Pvt. Ltd. & MIT Academy of Engineering

Foundation of Web App Development Using ASP .NET (04/2025)

Faculty Development Program - Parul University

AWS Academy Graduate - AWS Academy Cloud Foundations (12/2024)

Amazon Web Services Training and Certification

Faculty Development Program on Cloud Architect (11/2024)

ExcelR Edtech Pvt. Ltd.

Languages

Gujarati

English

Hindi

Quizzaro

04/2023 – 06/2023

Lead a team of 3 members to create app that allows to play quiz.

The quiz can be played in both single player as well as multiplayer. This project was completed on Android Technology.

Augmented Reality in Business Card

10/2021 – 04/2022

Solo Project that uses a specific marker for identification and augments a virtual business card. Used Python modules like panda, tensorflow. Used aruco marker for more than 93% efficiency.

Face Mask Detection

06/2021 – 02/2022

Contributed in making a working model to detect mask at public spaces. Had a key role to train the model and solving various errors during development. Used various Python modules like panda, tensorflow. The accuracy was above 90% for detection.

Sports Club

01/2021 – 04/2021

Contributed in building a simple website that can be used to register for tournaments and also use facilities of an imaginary club. Used php for the website building.

Publications

Co-Inventor | Registered Design: Machine Learning-Based Heart Disease Detection Device

The Patent Office - Government of India

25/06/2025

Design No.: 450150-001 | Registered under Designs Act, 2000

Contributed to the system design, focusing on sensor integration, user interface for clinical usability, and machine learning model alignment with detection workflows.

Collaborated with a multidisciplinary team to ensure the design met medical device standards and user-centric deployment in healthcare settings.

Co-Inventor | Registered Design: AI-Based Device for Online Assessment

The Patent Office - Government of India

21/03/2025

Design No.: 452334-001 | Registered under Designs Act, 2000

Contributed to the design's functional architecture, focusing on user interface alignment with automated assessment workflows and data integrity measures.

Collaborated with a cross-functional team to align the device design with educational technology needs, enhancing accessibility and reliability for large-scale deployment.

Co-Inventor | Agriculture Crop Monitoring Device

The Patent Office - Government of India

Design No.: 484755-001 | Registered under the Designs Act, 2000

Contributed to the development and design of the Agricultural Crop Monitoring Device, with a focus on integrating smart monitoring components, improving field-level usability, and aligning the system architecture with precision agriculture workflows.

Collaborated with a multidisciplinary team to enhance the device's functional design, ensuring practical deployment for crop health monitoring, agricultural efficiency, and farmer-centric usability in real-world farming environments.

**An AI-Powered Framework for Skill Assessment and
Personalized Career Pathway Recommendation in STEM and
Coding Courses for High School Students: A Systematic
Literature Review**

International Journal of Environmental Sciences

2025

I have contributed to the exploration of Artificial Intelligence (AI) applications in secondary Science, Technology, Engineering, and Mathematics (STEM) and coding education, particularly in enhancing skill assessment and career decision-making.
